Full stack developer with 3 + years of experience in MERN + SQL.

EMPLOYMENT HISTORY

Softwar Engineer, HDFC Ergo Mumbai

Jul 2022 — Present

- Developed two main projects Pehchaan and Chase from their initiation to their successful conclusion.
- Pehchaan is a **KYC** project to verify the customers. Had been used by **10 million** plus people. Tasks included were **OCR**, human verification dashboard, and partner company integrations. In the creation, we leveraged the help of the. signzy APIs. Tech - MERN
- Chase is an in-house claim **investigation management application**. The main part was to focus on crafting the logic that enabled the smooth progression of cases among different levels of investigators involved in claim investigation. Chase reduced the **30% cost** and increased by **55% accuracy** in investigations. Tech - PERN

EDUCATION

Bachelor of Science in Information Technology, Gr patil Mumbai University
